# Inspiration

for Safety and Oil services

### About

Inspiration is a multi business enterprise with interests in marketing, technical and logistic supports services, oil and gas, power, hospitality and investments. Inspiration has an image as a quality company providing quality service consistently.

### Mission

Our mission is to supply the requirements of industries and organizations by providing a vast selection of quality products at competitive prices. With our highly qualified engineers and business experts, we guarantee our customers a First Class service.

### Goal

Our goal is to satisfy our customers by meeting their expectations safely and in a timely manner. We manage our business with the utmost responsibility in order to achieve success and provide the best value for our customers.

### Vision

To provide reliable, customized and efficient services with balanced fees and with a major focus on the safety of our clients and their valuables, and through a true commitment to achieve the highest levels of customer satisfaction and to continue developing comprehensive solutions.

### Values

Our business ethics & service performance are based on the same values through which we interact with our clients: With honesty, integrity, compassion, respect, accountability and professionalism.

when the clients gain reassurance,  
**reliability and services**, clients show **satisfaction**  
 Inspiration is a company that creat this satisfaction  
 which come true within the enviroment they inhabit,  
 we creat an inviroment where clients feel safe  
 by protecting people lives ,ensuring their safety  
 and helping revitalize communications  
 through the products and services we deliver to them

# Smiles for our Clients

We are committed to  
improving our services,  
listening to you and increasing  
your satisfaction

## Electro Mechanical Division

### Stunning ideas for developing electro-mechanical services

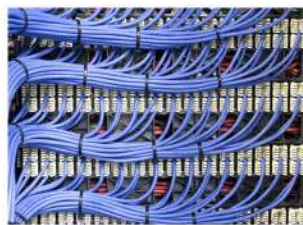

Inspiration is credited with its stunning ideas for developing electro-mechanical services suiting various applications under one roof. This helped in bringing up stunning aesthetically built offices that are tailor-made to suit the organizational requirements for their different clients under one roof.

The business segment of inspiration involves wide range of services

HV/MV/LV Power distribution systems, Instrumentation, Voice/Data systems, fiber cabling, CCTV, MATV, Sound systems, Fire alarm and Fire fighting systems, Access control systems,

Earthing and Lightning protection systems, Clock systems, Q-Matic systems, HVAC systems, Standby systems, FM 200 systems, Traffic signaling systems, commercial, Generators, industrial, residential, institutional, hospital, hotels, transit lighting systems etc.

### An Emergency Broadcast System for swift evacuation guidance

A broadcast system that automatically provides audio evacuation guidance in the event of a disaster. As well as Japan, the system has also been rolled out internationally and we have acquired new European Standards for fire detection and fire alarm systems as a world first.

### An Advanced Security System that strengthens the anti-crime capabilities

In response to enhanced anti-crime awareness, security equipment, including security cameras and video recording equipment, has become increasingly important. We use advanced functions to achieve social security and safety via networking, high functionality and extended resolution.

Town Recorder

A combined camera and video recorder, featuring a built-in security camera and zoom/focus and recording functions, helps as part of anti-crime measures in school zones and parks.

### Full HD Security System

Multiple high-definition video camera systems are lined up, making it possible to read more detailed information, such as object characteristics, through the screen.

### An Integrated Communication System within the premises, for prompt action in the event of an emergency

An intercom system used for room-to-room communication within the facility, allowing you to call a disaster-prevention base or make emergency broadcasts throughout the whole building at the push of a button in the event of an emergency. This system is also exploited to facilitate safety management at hospitals and schools overseas.

N-8000 Series Packet Intercom System

## Supporting daily operations;

we ensure the necessary equipments passed on

## A world of Solutions “ for your growing needs

## Striking greater levels

Our systems helps to improve the operations

### Reliable communication that makes life more comfortable

Information announcement which draws the attention of many circulating within the airport or station. Our system can be used to control broadcasting areas and accurately convey the required information to where it is needed.

PA System on a railway car  
(Washington, D.C. Metro 7000-Series railway car [Made by Kawasaki Heavy Industries, Ltd.]

Various railway car systems, including a PA system, security camera system and electric destination indicator for more reliable and comfortable passenger services.

### A powerful sound system that creates a large space

Sound support is key to enhance realism at sports events as well as a sense of unity at a concert hall. Through sounds, an audience within a large space can take in and share extraordinary experiences.

We deliver optimal sound, exploiting accumulated data and expertise, including precise sound field simulation and digital measurement technology, etc.

### The Plane Wave Speaker that conveys sound to only the necessary areas

While delivering clear announcements to certain station platforms, the system also controls surrounding sound leakage. Our advanced sound technology supports a comfortable sound environment.

### TOA's Line Array Speaker System; recognized by world-class theater

The Setagaya Public Theatre is an acclaimed venue for contemporary theatrical and dance performances. A TOA's line array speaker system, boasting excellent sound intelligibility and transmission ability, is introduced to deliver actors' voices and sound effects uniformly to every seat.

The Spirit of Foundation

## Retaining a perspective for the next generation

We provide custom and personalised services for a variety of clients, including many companies. We pride ourselves in providing bespoke solutions to our client needs. Our clients range from Large Manufacturing Companies, to Major International Construction and Civil Engineering companies through to the smaller and more personalised clients. Each having its own and sometimes completely different requirements.

### Quality Assurance

## Our Global Development System, producing innovative products

the Company endeavors to continuously develop and improve techniques in selling products and providing services, which are ideal for their stated purpose; meeting the agreed specifications and quality needs of the Customer. Technical progress with incessant betterment in a quality for the benefit of all that is the objective of Inspiration Security Services & Supplies.

Variety of **Solutions** for more secure working Environment

## State of art **Technology** From all over the World “ and we put it in our clients Hands

We develop products while retaining roots in the local community; feeling the culture and climate in its bones and establishing an optimal regional network, including production, marketing and after-sales service.

We believe we can only deliver value that people really seek worldwide after implementing such localized business operations.

### **FOCUS ON CUSTOMER**

As a solution provider, Inspiration offers its customer an A to Z approach. Projects always start from the customer's needs and a detailed analysis of the specific environmental challenges at hand. Possible technical solutions are then evaluated to their suitability, after which the customer is offered a tailored solution with an optimal quality/price ratio. It is possible to execute complex and multidisciplinary projects whatever their scale and wherever they occur in the world.

### **QUALITY, HEALTH, SAFETY AND ENVIRONMENT TAKE PRIORITY**

Inspiration operates in compliance with the required quality standards:

- ISO 9001 – certificate for the Quality management system;
- ISO 14001 – certificate for the Environmental management system;
- OHSAS 18001 – certificate for the Occupational Health & Safety management system

Some Of Our Work

## Some Of Our Work

# WE BUILD

A CULTURE OF SAFETY

our safety policy is simple: Everyone gets home safe. We believe that building a strong safety culture is everyone's responsibility. Our track record in the oil sands is proof that we follow the highest safety standards, and always work toward zero incidents on all projects.

The document includes sections for 'ENVIRONMENTAL HAZARDS' and 'RESPONSIVE HAZARDS'. A 'STOP' sign is partially visible in the background.
